CHAMBER SUITS.

If your spirits grow dull and you would beguile the tedious day, (or night) with sleep, the richest indication of your wisdom would manifest itself in the purchase of a nice chamber suit, a fine hair mattress and one of those deeply satisfactory steel springs, whose excellence is of a most positive nature. Thus equipped, at our store, for wooing sleep, dull spirits and dissipated fancies would take a welcome flight and refreshing sleep—the slumber that comes from using one of our beds—would energize you with dynamic strength for the duties of the day. Chamber Suits from \$12 to \$25.

HAT RACKS.

A sign of Hospitality
Is a handsome Hat Rack in your hall. It seems to say, "Walk in, my friend, and make yourself at home." The handsomest and best, cheap and medium grades in the city can be found
At our store.

IF WE DID

Not know there are people in Topeka who like nice furniture, we would not carry in stock the elegant, yet reasonably priced sideboards we show in our Quincy street store room. In the dining room the sideboard plays an important part and has become, these days, a necessity as well as in many instances it is, or can be made to be, an ornamental adjunct to the room. In our display you can exercise a taste of selection, for we have many of them.
We have cheaper sideboards at \$15, \$17, \$18 and \$20.

CHILDREN'S CHILDREN'S

Folding Beds, like the large folding beds in antique finish, with paneled fronts, are nice affairs for this price, \$15. Other folding beds, the newest things by the way, are fixed as they can be draped in silk or other fancy fabrics, they are remarkably pretty, particularly when draped, and are cheap at \$12. Then we have iron beds for the children and three styles of folding cots and fancy beds, and all kinds of furniture for the rising generation.

CHINA CLOSETS

With swelled front and concave glass sides. Come near filling all conditions required in a strikingly beautiful China Cabinet. The other cabinets have styles of their own and are none the less charming on that account. There is no reason why any woman possessed of costly china or silver plate, should deny herself and her appreciative friends the opportunity and pleasure of inspecting her art treasures, brought out into the distinct relief that only a pretty China Cabinet can exhibit such household treasures, as they should be exhibited in the right light and style. A number of patterns gives you an admirable opportunity for a selection.

A CHEFFONIER

Is merely an enlarged or smaller size of dresser with or without drawers. Every man, bachelor or married, should have a Cheffonier for his own use. The married man is very apt to criticize his wife's conduct in putting his shirts, collar, cuffs and like articles in receptacles and places quite familiar to her doubtless, but unknown to her in a week of Sundays. For him to have a place and everything in the case, in order or as is most frequently the case, in disorder, and to preserve the domestic peace, are some of the important reasons why a Cheffonier should be installed in every home. This leads to the observation that a cheffonier is more than a piece of furniture. It would be hard to find, if you set eyes on the Cheffoniers, it would naturally settle the whole business. You will have to have one.

MUSIC CABINETS

We have only a few left, not enough to call a stock, and in order to be quick, if it would be any inducement to the musically inclined, we would not mind such a little thing as charging off a dollar, even make it two dollars on a pinch, from our regular price, which is why you paid six for one we regularly sell for \$5, said were cheap.

MEN ARE SLAVES. YET.

Rev. J. D. Botkin's Labor Day Sermon Yesterday.

HE SPEAKS AT GARFIELD PARK.

He Says the Industrial Slavery of Today is as Bad as African Slavery Was.

The Populists have secured a magnetic and powerful speaker in the Rev. J. D. Botkin, who made his initial speech to a Topeka audience at Garfield park yesterday. It was advertised as a Labor Day sermon but was a strong political address in the main. About 500 people were present.

The greater number of those who attended were Populists, although Ed Hoch occupied a seat near the speaker and listened with intense eagerness to every word uttered by the speaker. There was quite a sprinkling of farmers in the crowd, some of whom drove ten miles to be present.

Mr. Botkin took for his text the fourth chapter of Luke, from the 4th to 23d verses. He also read the fifth chapter of Nehemiah.

He said that no better custom could be followed than going to church. It is good for the workingman and good for every one. Christ had exalted labor by working at the carpenter trade until he was 30 years old. "If the church are too large and gaudy," he continued, "as is the case with some of them—not all—then go to the Salvation Army, which is a blessed institution. I do not complain because the rich build fine churches, but I have thought that if they spent it to build churches and work among the poor it might be better spent."

"It is the Lord's mission to heal broken hearts and there are broken hearts all over Kansas and all over the nation today and it is the mission of the true preacher to heal those broken hearts."

"Jesus was the model preacher and the most prominent thing in his career was that he preached to the poor."

"God did not intend that there should be any slavery and Christ came to preach the deliverance of the captive. Any system which oppresses or bruises is out of harmony with the teachings of Christ. In Christ's time once in every 50 years the jubilee trumpet sounded—the captives were set free and everything reverted to its original owner."

"You may not be ready for this now, but it is God's idea. There is no such thing in God's teachings as a title to land in fee simple. All land belonged to God. There were some sharpers then as now. They leased the land but couldn't buy it. The whole thing had to go back at the end of 50 years. Of course this plan would not satisfy the men who want to own large tracts of land. You may say it is repudiation but it is God's plan and God is going to work out his ideas just as sure as you live."

"The world has never yet seen a perfect government or civilization, nor will we for many years—there are good things about our government and there are bad things. We elect men to the legislature and congress continually to make new laws and to change things because we recognize that our system is not perfect. The general trend of everything is toward a perfect form of government. The preacher then took up the subject of labor."

"I say and I earnestly believe that American labor is in slavery, that is as exacting as African slavery. I believe the Lord will thunder away until these shackles are broken. If we could come back to the Golden Rule all strife between the employer and the employed would cease, and the government, which is conducted nearest in the channels of the Golden Rule, will be nearest perfect."

WON'T INSURE HERE MOST.

Insurance Companies Will Have Nothing to Do With Anarchists.

New York, Sept. 3.—The insurance companies evidently take an anarchist at his word. Anarchists have a hard time getting insured. Herr Most, Mowbray, and Timmermann have always encouraged house burning, and even if they owned the Equitable building, they could get no insurance on it. Most is not so radical since he served two terms in the penitentiary, but insurance men have big memories and his pleadings for insurance have entered deaf ears.

Most recently made application for a small amount of insurance on his life. The agent, who was first eager to write the policy, dropped his pen when he heard the name of the applicant.

Claus Timmermann, editor of the Flaming Torch, made application for insurance on his household goods. The refusal he received inspired a red-hot editorial in the next issue of the Torch. A well known insurance agent said: "Anarchists are peculiar specimens of humanity, and the moment we find they are anarchists we drop them like hot cakes. An anarchist would find it a hard matter to get insurance on his property. They are always preaching dynamite and fire, and we take them at their word, as a matter of fact, they are cowards at heart, and run at the sight of a policeman."

BREIDENTHAL ANSWERS.

Henderson, He Says, Has No Evidence of His Assertions.

Chairman Breidenthal, of the Populist state central committee, speaking of the Ben Henderson letter today, said: "Mr. Henderson's letter contains nothing that has not been hashed and rehashed for months, except the charges against Senators Kelly and Householder. These gentlemen can answer for themselves."

"Mr. Henderson, like all other accusers of this administration, furnishes no evidence that would be accepted in any court of justice. He alleges certain things and expresses certain beliefs, but offers no proof. The time is past in Kansas, when this sort of methods will avail anything. Our people demand something more than mere assertions. They have learned that but little reliance can be placed in statements of this character, no difference by whom they are made."

A man may give expression to his views upon any political question or policy in this general manner and have some considered, when it comes to charges of misconduct in office or corruption, all intelligent, fair minded people will demand proof.

"Yes, Henderson is a Populist. We have all kinds of men in our party. Some have peculiar ways. Cowley county produces queer politicians. Ben Henderson is one of them. The letter will cause many people to investigate these charges and investigation will develop the facts. I have no fear of the result. We court the fullest investigation of all charges and when the people learn the extent of the misrepresentation they will not assist the organization that has resorted to these methods to regain control of our state."

"Let the truth be told. Spare no guilty man, but if these fellows have any belief in a hereafter they should stop their lying."

TO CLOSE SALOONS.

An Effort Being Made to Rid Des Moines, Iowa, of Them.

Des Moines, Ia., Sept. 3.—The attorneys for this county have decided to begin action today to close all the saloons running in this city under the miset law. It will affect the business of 45 places. It will probably not close the saloons for fair week. The basis for the injunctions is the allegation that the petition on file at the office of the county auditor is defective and insufficient. It is claimed by the attorneys that the number of signers is too small to come within the fifty per cent limit of the law.

They claim to have had a careful examination made of the petition during the last few weeks, and although the work is not yet finished the names are running far short of the required number. The petition should have on it some 5,000 names. The county men had only a few hundred of unexamined names as a margin. The examination of the county attorney reveals the fact that the petition is deficient by at least 300.

This violates the entire petition. It is the theory of the county attorney that the saloon men cannot go out and get the number of names the petition lacks, but they must get an entire new petition of 5,200 or 5,300 names.

THE HIGHEST AWARD.

Royal Baking Powder in Strength and Value 20 Per Cent Above Its Nearest Competitor.

The Royal Baking Powder has the enviable record of having received the highest award of its class—greatest strength, purest ingredients, most perfectly combined—wherever exhibited in competition with others. In the exhibitions of former years, at the Centennial, at Paris, at Vienna, and at the various state and industrial fairs, where it has been exhibited, judges have invariably awarded it the Royal Baking Powder the highest honors.

At the recent World's fair the examination for the baking powder awards were made by experts of the chemical division of the Agriculture department of Washington. The official report of the tests of the baking powders which made by the department for the specific purpose of ascertaining which was the best, and which has been made public, shows the leavening strength of the Royal to be 180 cubic inches of carbonic gas per ounce of powder. Of the cream of tartar baking powders exhibited at the fair, the next highest in strength tested contained but 133 cubic inches of leavening gas. The other powders gave an average of 111. The Royal, therefore, was found of 20 per cent greater leavening strength than its nearest competitor, and 44 per cent above the average of all the other tests. Its superiority in other respects, however, in the quality of the food it makes as to fineness, delicacy and wholesomeness, could not be measured by figures.

It is these high qualities, known and appreciated by the women of the country for so many years, that have caused the sales of the Royal Baking Powder, as shown by statistics, to exceed the sales of all other baking powders combined.

THE "MILLS OF JUSTICE."

The Grist They Grind Out at Police Court.

Labor Day made very little difference with the "mills of justice" in police court, and they ground out their daily grist as usual.

Jack Morrison was there, and the blot on his fair name signified that he had been disturbing the peace. The evidence signified it too, and his fine

was placed at \$3, which he has not yet paid.

James Wilson, who was in court Friday and escaped with a suspended sentence of \$10, was back again with his customary regularity and very few clothes this morning. Jim has formed a particular attachment for a certain brand of Topeka cider and does not seem to have the heart to tear himself away from it. So instead of leaving town Saturday, as the court had ordered, he remained long enough to wrap himself around a sufficient quantity of the article of his choice to produce the hallucination that he was Eve and somebody had deprived him of his fig leaf.

Clothes were burdensome to his garden of Eden temperature and he shed them in rapid profusion on Kansas avenue in North Topeka. When the patrol wagon in command of Officer Owen arrived on the scene James was basking in the Saturday evening rain, a two-pint smile and his shirt—nothing else. The judge tacked another ten dollars to his former fine and James will have twenty days in jail to sober up on.

Harry Rutherford is a printer with a Missouri appetite who was so surprised to find anything to drink in Kansas that he celebrated it in elaborate style. Officer Davis caught him in the act and Judge Emswinger charged him five dollars for it.

The case of Tony Smith, who is accused of having beaten his young wife one day last week, was to have been tried this morning, but for some reason Mrs. Smith did not appear against him and the case was re-set for the seventh.

Green McGregor, wife and Mary Norman were on hand this morning to tell why they had been so familiar with Wm. Andrews' apples and his peace, but the judge didn't think the evidence was strong enough to hold them and they were dismissed.

This settled the business of the court for Labor Day, 1894.

SANTA FE ROUTE.

The Santa Fe the Official Route to Pittsburg, Pa., for the Annual Reunion, G. A. R.

Department Commander Campbell has chosen the Santa Fe in connection with the Baltimore & Ohio railroad as the official route to Pittsburg for the national encampment G. A. R. LABOR DAY.

[Continued from First Page.]

come had three ponies and Roy Crawford drove two, tandem.

Next came the miscellaneous floats and merchants' displays. There were a half dozen coal wagons, two wagons with pianos and organs, a fine display of furniture, several wagons loaded with lumber. A blacksmithing firm went through the motions of shoeing a horse on a wagon. The new telephone company was out with their entire construction gang and two of the new instruments on a wagon.

A transfer wagon loaded with 25 boys of all sizes attracted some attention and the boys displayed their enthusiasm by splitting the air with their shouts.

The procession marched to First street and counter-marched to Ninth, when the divisions disbanded. The crowd on the streets was very large and about fifty bugles and carriages followed the procession.

LABOR DAY IN NEW YORK.

Twenty Thousand Take Part in the Street Parade.

New York, Sept. 3.—Labor Day made an imposing demonstration here today. The weather was favorable for marching the sun being obscured by haze while a cool breeze from the east made the air bracing.

Not far from 20,000 representing nearly all the trades were in line and here and there in the procession were bands of women from the various assemblies such as the cloak makers of organized feminine labor. Cooper union was the focus about which the bodies gathered for parade. It was some time after the time set for the start, 10 o'clock, before the procession was got under way.

The division which formed in Astor Place was composed for the most part of those engaged in the stone industry, while the theatrical trades brought up the rear. The line of march was up Fourth avenue to Union Square, to Seventeenth, to Fifth avenue, to Fifty-ninth street, where the procession disbanded.

Such of the marchers as were so disposed proceeded thence to the picnic of the Central Labor Union at Bremner's Union Park, but at least as many others finished their day in pleasure-seeking, with wives and children, in other ways.

For instance, Mrs. Chas. Rogers, of Bay City, Mich., accidentally spilled scalding water over her little boy. She promptly applied De Witt's Witch Hazel Salve, giving instant relief. It's a wonderfully good salve for burns, bruises, sores, and a sure cure for Piles. J. K. Jones
